Welcome to the February Newsletter.

Fed up with the poor internet access which was sometimes as low as 1kb per second, we lashed out and ordered a new system. When they came to install the equipment there was the driver who remained in the car, the man who got up on the roof to install the satellite dish, another man to go into the ceiling space to run the wires, another man to connect the wires to the router, a girl to input the new data onto our computer and make sure it worked, then another girl taking notes to make sure each person did their job! In the first two days we updated Windows and the anti viruses on all the computers with a total of more than 400megabites!

Frank and the team went to a remote village in Western Uganda last week for a seminar and crusades. They saw the hand of God move on one lady who had been experiencing pains all over her body and hadn't eaten for 21 weeks. She claimed that she had been cursed, but God set her free. Another man testified that he had been insane, but God had delivered him and his thoughts were normal. On the way to the crusade the team stopped off at one of the other COME churches where Frank married the pastor and his wife under a tree. They have been living together for over 20 years and have 6 children, but the ladies parents wouldn't allow them to marry "officially" because Johnson couldn't pay the bride price. The wedding gown was borrowed from COME for the event.

One of the old HOPE Nursery classrooms will soon be made into the new offices. The current COME Office is 3mtrs wide x 5.5mtrs long and has to accommodate a staff of 6.

Johnson and Josephine

Please remember not to use the old COME email address as it has been cancelled. The new email addresses are:

[admin@comeuganda.org.au](mailto:admin@comeuganda.org.au)

[frank@comeuganda.org.au](mailto:frank@comeuganda.org.au)

[michele@comeuganda.org.au](mailto:michele@comeuganda.org.au)

Frank and Michele Heyward, Directors

Claire was cooking inside with the door and window shut when she fainted because of the fumes. She fell on the charcoal stove and her elbow remained in the fire. The damage was so severe that her arm had to be removed. COME assisted with arrangements for the op, care of the patient, and dressing of the wound. She was able to return home this week.
